

The Norwich unit of the RAF Air Cadets has two .22 BSA International Rifles for sale, both with Parker-Hale sights.

These are both in good condition and have been regularly serviced.

They will receive a final service from a local gunsmith prior to handover to the new owner.

These Martini action rifles are ideal for beginners and practiced marksmen.

They would be a valuable addition to your armoury inventory.

This email is being sent bcc to a number of local gun clubs.

I should be grateful if you would let me know whether OR NOT you are interested and your offer for one or both rifles.
